Projects

SabaiHealth — CLIENT WORK
Bilingual Thai/English healthcare platform for Bangkok with a digital NDA e-signature pipeline. Lead frontend and systems work on a live client product.

CineReserve
Cinema booking system using PostgreSQL SELECT … FOR UPDATE row-locking to prevent double bookings. Docker on a production VPS behind Nginx, GitHub Actions CI/CD, and Google OAuth

ShopMate AI
Voice and conversational e-commerce agent that lets shoppers browse and order through natural conversation.

ZoomFlow
n8n pipeline moving Zoom recordings to Google Drive, with HMAC-SHA256 webhook verification, idempotency handling, and retries so duplicate deliveries do not create duplicate files.

Vocab-App
AI vocabulary app built with Supabase and Gemini, using spaced repetition to schedule reviews at the point of forgetting.

Developer Portfolio
Next.js 16 / React 19 / Three.js portfolio scoring Lighthouse 99 on desktop and 86+ on mobile via viewport-gated 3D mounting, so heavy scenes load only when visible.

Calowry
A client web platform built for Calowry Australia Pty. Ltd. (Gordonvale, Queensland), a sustainable biomaterials lab and manufacturer producing plant-based fibers from coconut mesocarp. Improvised raw client assets into a clean, modern UI without text bloat, featuring an interactive product catalog and a guest access portal for internal documentation.
